Re: Final RFA Report
General Electric Company
West Burlington, Iowa
EPA ID No. IAD005272703

Dear Ms. McBee:

The U.S. Environmental Protection Agency (EPA) has completed the Resource Conservation and Recovery Act (RCRA) Facility Assessment (RFA) of the above referenced facility. The purpose of this letter is to transmit to you a copy of the RFA report.

The objective of the RFA is to identify whether or not a release has occurred at the facility. It is not an evaluation of the rate and extent of contamination and does not determine how harmful a release may be to human health and the environment. In the event that this information is needed, EPA will require the facility to perform a RCRA Facility Investigation (RFI). Such requirements are typically imposed either by issuance of a Consent Order or a Permit.

After you review the RFA report, we request you submit any additional information or comments that you may have. EPA will evaluate the need for corrective action at your facility based upon the RFA and any additional information you provide.

RCRA

561578

If you have any questions concerning the RFA, please do not hesitate to contact me at (913) 551-7724.

Sincerely,

A handwritten signature in cursive script, appearing to read "Don Lininger".

Don Lininger
Environmental Engineer
